Dear 1st grade families,

The Akiva First grade team is so excited to get to know you and your children even better! While we look forward to our own adventures this summer, we are also working hard to prepare for the Fall and a great 1st grade year.

The Book to Read (or read to your child) for Our Theme of **Tikkun Olam**:

**Every rising first grader must read** the wonderful book, *Ordinary Mary's Extraordinary Deed* by Emily Pearson. You can check it out of the library, purchase it, or <u>listen to it on YouTube</u>. If your child listens to the book, please make sure that he/she reads along with a hard copy.

## Hebrew reading:

As you know, reading consistently is so crucial for reading fluency, comprehension, building vocabulary and children's confidence. This year, each child has worked so hard to improve fluency as we asked every child to read for at least 5-10 minutes each day. We are asking you to help your child maintain this habit over the summer even if it is just for 5 minutes each day. Please practice the letters, the vowels and the words in the packet you received at the end of the year. If you are interested in any other books to borrow for the summer, please do not hesitate to let us know.

## Math

The Akiva math program is a balance of teaching conceptual understanding and procedural accuracy. Each grade level has certain concepts as well as procedures and math facts that they are responsible for teaching. First graders should enter the class already knowing all of their addition and subtraction up to 5+5, automatically. In first grade, they will learn addition and subtraction facts up to 10+10. It is vital that students know all the facts in order for them to be successful with the new concepts and procedures that they will learn next school year. Students do have a summer slide if they do not practice, so please encourage your child to practice math facts for a few minutes each day. The practice will definitely pay off!

Ways to Practice All of the Addition and Subtraction Facts up to 5.

1+1=2		2-1=1
1+2=3	2+1=3	3-1=2
1+3=4	3+1=4	4-1=3
1+4=5	4+1=5	5-1=4
